

Clever feet challenge

Find out the size of an arctic animals foot. Make a footprint to scale (its actual size) and then compare it to the size of your own foot. What is the difference?

Freezer challenge

Fill an ice cube tray with different liquids. E.g. milk, water, cooking oil, coca-cola. Put it in the freezer. What can you find out? Take photos and write up your science investigation.

Make-a-puppet challenge

Make a puppet of an Arctic or Antarctic animal.

Ice-cream challenge

Make your own ice-cream sundae. What unusual toppings can you use? Take a photograph and write your own instructions to show how you made it.

Eco challenge

Find out why the ice caps are melting? What can we do to stop this from happening? Present this as a poster.

Fact-finding challenge

Pick an animal which lives in the snow. Create a report about this animal. Include headings and sub-headings.

Life in the Freezer

KSI Homework Project

You will earn 2 marbles for each challenge that you complete. If you do all 6 then we will give you a bonus of 25 marbles.

There will be one prize per class for the best piece of homework. This will be voted for by the children in your class.

The showcase for parents will be at 2.45pm on Monday 12th March 2018. Please bring in your homework on that day.
